

KIRAN ATMARAM AHER

Executive Frontend Developer | UI Developer

+91 7264965171 | kiranaher5171@gmail.com | linkedin.com/in/kiran-aher-96k | github.com/kiranaher5171

PROFESSIONAL SUMMARY

Frontend Developer with 3+ years of experience specializing in React JS, Angular, Next.js, HTML, CSS, and JavaScript. Skilled in building responsive, high-performance web applications using Bootstrap and Material-UI with a strong UI/UX focus. Experienced in converting design mockups into reusable components and optimizing performance. Seeking to apply frontend expertise while growing toward full-stack and modern web technologies.

TECHNICAL SKILLS

Frameworks & Languages: Strapi (CMS), Next.js, React.js, Vue.js, Angular, Python (Basic)
AI Tools & Libraries: OpenAI API (GPT-4), Cursor, Claude, Google Gemini
Databases: MySQL, MongoDB
Web Technologies: HTML5, CSS3, Tailwind CSS, JavaScript (ES6+), Material UI, Ag Grid Tables, HTML Emails Template
API Development: RESTful API Design & Integration
Version Control: Git, GitHub, Clickup
Other: Unit Testing, Debugging, Code Reviews, Agile Collaboration, Responsive Design

PROFESSIONAL EXPERIENCE

Executive Frontend Developer (UI) | [Decimal Point Analytics, Nashik](#) | August 2023 – Present

- Designed and developed 20+ responsive user interfaces utilizing HTML, CSS, and Bootstrap, ensuring seamless cross-browser compatibility and a consistent user experience across diverse platforms.
- Integrated and managed Strapi CMS as a headless backend solution, structuring dynamic content architectures and serving optimized, highly efficient REST/GraphQL APIs for web applications.
- Architected and deployed high-performance web applications using Next.js and Material UI (MUI), leveraging server-side rendering (SSR) and optimized component libraries to maximize page speed and SEO.
- Implemented Google Consent Mode v2 and Google Tag Manager (GTM) architectures within asynchronous framework lifecycles, resolving complex hydration race conditions to ensure data compliance and web analytics data recovery.
- Converted 10+ complex UI/UX wireframes and mockups into pixel-perfect, interactive web components by collaborating closely with design teams to align with strict brand standards.
- Engineered dynamic data grids using AG Grid and optimized SQL database queries, enabling seamless rendering, filtering, and manipulation of large-scale financial and analytical datasets.
- Conducted weekly code reviews and managed pull requests (PRs) via Bitbucket, driving dependency updates, component optimizations, and resolving 50+ high-severity security vulnerabilities identified via Sonar code scans.
- Streamlined CI/CD deployment workflows via Jenkins orchestration, coordinating deployment configurations across production, pre-production, and UAT environments to guarantee zero-downtime releases.
- Reduced average bug resolution times and maintained a software defect rate below 5% across all production releases by proactively writing unit tests and enforcing clean code practices.
- Collaborated within a 5-member cross-functional Agile team, consistently achieving sprint objectives and contributing to the predictable, on-time delivery of enterprise client projects.
- Interested in Python programming and Full Stack Web Development, focusing on backend development and building scalable web applications.

Frontend Developer Intern | [Manasvi Tech Solution Pvt Ltd, Nashik](#) | March 2023 – August 2023

- Contributed to 2 live client-facing software projects over a 5-month internship, writing feature code and fixing bugs,
- Identified and resolved 20+ bugs across unit and integration testing cycles, directly improving application stability before production releases.
- Participated in daily standups, sprint reviews, and team code walkthroughs, gaining hands-on exposure to agile development workflows.
- Strengthened problem-solving and debugging skills by studying existing codebase architecture and applying learnings to new feature development.

EDUCATION

Master of Computer Science
Bhonsala Military Collage, Nashik — April 2025

Bachelor of Computer Science
Arts, Commerce, Science Manur College, Kalwan — April 2021

ADDITIONAL INFORMATION

Languages: English, Hindi, Marathi **Date of Birth:** 06 Oct 2000 **Marital Status:** Unmarried
